CG Brand (CGDI12B) Iron which has the temperature control, spray, dry functions.

Special Safety Instructions

- Read the operation instruction carefully before putting the appliance into operation.
- The appliance is designed exclusively for private use and for the envisaged purpose.
- This appliance does not fit for commercial use.
- If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
- Do not immerse the appliance in water.
- The user must not leave the iron unattended while connected to the supply. To protect children from the dangers posed by electrical appliances. Make sure that the cable is hanging low and that children do not have access to the appliance.
- The plug of the supply cord must be removed from the socket-outlet before the water reservoir is filled with water
- Do not allow the supply cable to come into contact with the ironing plate.
- Before use, check that the power supply corresponds to the voltage shown on the serial number plate.
- Travelling irons are not intended for regular use.
- The iron shall be used on a stable ironing board
- The iron shall not be used if the iron has been dropped at any time, or if there are visible signs of damage or if the iron is leaking. The iron shall be sent to the manufacturer or his qualified service agent before further use.
- After use, close the temperature variation. Remove the plug from the power socket and place the iron on its back cover.

Warnings:

- Do not use two appliances with high power at the same time.
- Connect the appliance only to a properly power cord outlet

Before Using:

- Clean the plate with a slightly moist cloth.

- Fill the water tank.
- Know about the temperature control functions. Choose the position according to the material of the cloth.
- Put the cloth and prepare the ironing.

Filling the water.

- Remove the mains lead before filling the water tank.
- Fill the water (if the water is very hard, we suggest using distilled or distillation water). Do not fill the water tank higher than the max mark.
- After ironing, drain the water tank.

Dry ironing

- Make sure that the iron voltage (see name plate) and the mains voltage match.
- Insert the mains plug into a correctly installed safety socket.
- Sort out the garments according to their ironing temperatures. Start with the lower temperatures.
- Press the spray button, make the cloth wet. It's easy to dry ironing.
- The LED lights up. As soon as it shuts off, the set temperature is reached (approximately 3 min). Now you can start to iron.

Always pull the plug out of the socket after using the iron.

Cleaning and Storage

- Make sure that the appliance plug is not connected to the socket.
- Clean the iron with a slightly moist cloth.
- Always put the iron away in a vertical position.

**IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT
IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.**

At the end of its working life, the product must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
